Pensions

There is no financial limit on the amount that may be contributed to a registered pension scheme. The maximum amount on which an **individual** can claim tax relief in any tax year is the greater of the individual's UK relevant earnings or £3,600. If **total pension input** exceeds the **annual allowance** of £50,000 there may be a tax charge on the excess. Maximum age for tax relief is 74 and minimum age for taking benefits is 55. Lifetime allowance charge – lump sum paid 55% and monies retained 25% on cumulative benefits exceeding £1,800,000. Maximum tax-free lump sum 25% (subject to transitional protection for excess amount).

Company Cars and Vans

These taxable benefits generally arise on employees earning £8,500 or over (including benefits) and directors. Company car benefit is calculated as a percentage (based on the car's CO₂ emissions rounded down to next multiple of 5) of the car's UK list price. The normal minimum rate is 15%. Diesel cars generally suffer a 3% supplement on top of the CO₂ emissions-based percentage. The maximum rate for all cars is 35%. Special rules apply to certain environmentally friendly cars.

Company car fuel benefit is charged unless the cost of all fuel for private use is borne by the employee. The taxable benefit is calculated by applying the appropriate car benefit percentage to £18,800.

Company van benefit is not related to CO₂ emissions but is a set figure of £3,000 with an extra £550 where fuel for private use is provided. There is no benefit charge for certain environmentally friendly vans or where the restricted private use condition is met.

Mileage rates for employees using their own cars for business

Approved rates are 45p per mile for the first 10,000 miles and 25p thereafter. Income tax and NICs may be due on higher rates and tax relief may be due on lower rates.

VAT fuel scale charges for 3 month return period beginning on or after 1 May 2011 (round CO₂ emissions down to next multiple of 5)
